Parental

With Christmas just around the corner, we thought we'd provide a little setting up appropriate any new phones, consoles or receive.

controls

the corner, we remind about parental controls for games your child may

Games/consoles

First, check the PEGI rating of any new games to check that your child is old enough to be playing them. PEGI provides age classifications for video games and **considers the age suitability of a game, not the level of difficulty**. It is important to note that PEGI do not take into consideration user generated content within games (such as on Roblox) and the chat facilities within games. Visit PEGI here: <https://pegi.info/>

For any new consoles, it is important to set up appropriate controls such as restricting spending limits and managing who they can communicate with. Follow the links below to find out about Parental Controls for each device:

Nintendo: <https://www.nintendo.co.uk/Hardware/Nintendo-Switch-Parental-Controls/Nintendo-Switch-Parental-Controls-1183145.html>

PS5: <https://www.playstation.com/en-gb/support/account/ps5-parental-controls-spending-limits/>

Xbox: <https://www.xbox.com/en-GB/community/for-everyone/responsible-gaming>

Tablets/Smart phones

As well as setting up parental controls on the device itself, remember to check any apps your child would like age and review all one. For the devices, purchases, restrict settings. Follow the

Information, tips and advice on setting up parental controls:

Online Games with chat

Is your child playing games

Users of this guide do so at their own discretion. No liability is entered into
online? Current as of the date released 1.12.21.

Children can communicate online through lots of different apps, social media and games (Snapchat, WhatsApp, Instagram, FIFA, Fortnite for example), so it's important to know what your child is doing online and who they communicate with so you can talk about the potential risks together.

Some games include communication between players, this could be via the in-game text chat, direct messages or talking through headphones. Some games do offer the ability to switch communication off or restrict bad language so make sure settings appropriate to your child are set up for each of the games they play.

Chatting to strangers

When playing online, your child might be playing games with people they don't know. It can be difficult to moderate online chat so ensure your child knows how to block and report other players that make them feel uncomfortable and that they know to talk to you or a trusted adult if they have any concerns.

My Family's Digital Toolkit

Would you like a personalised online safety toolkit? Answer a few questions about your children's digital habits and then you will receive age-specific advice to support your children online. The form does require an email address. You can find out more information here:

<https://www.internetmatters.org/digital-family-toolkit/>

Be kind

It can be very easy online for children to behave in a way that they wouldn't if they were face to face with each other. Talk to your child about how they are speaking to others online and encourage them to talk to people online with respect, like they would if they were face-to-face.

Ensure that your child understands that if they receive unkind messages (or sees something that worries them) then they should not reply or engage in conversation with the person, but they should instead tell a trusted adult.
